

Vegan Dietary Fibre
100% Pure Pulverised Gracilaria Seaweed

An ISO 22000:2018 Co

Energy Bar

'Sealife' is our 2 in 1 texturizer and plant based dietary fibre, made from 100% pure pulverized Gracilaria seaweed. It is not just a simple seaweed fibre but is considered as a novel food ingredient giving:

- Soluble and insoluble dietary fibre
- Enhanced mouthfeel and texture
- High content of functional minerals

'Sealife' is organic, chlorine free, gluten free and non-GMO. Its soluble fibre component can be dissolved in warm water to form gel up on cooling. 'Sealife' is an alternate source of iodine and potassium and is a clear label friendly food ingredient without requirement of E number.

Company Profile

Established in 1982 Marine Hydrocolloids is India's largest manufacturer & exporter of Agar Agar (Powder & Strips), and also offers Spreadable Agar Agar branded as Wondergel, Carrageenan and Alginates. We offer different grades of these products to cater to industries ranging from Food, Confectionery, Bakery, Dairy to Cosmetics, Personal Care, Plant Tissue Culture, Dehydrated Culture media, Microbiology, Dental Castings and Pharmaceuticals.

Our four-decade long legacy has equipped us with the know-how that has constantly kept us on our toes to meet the demands of the changing nature of consumption.
